At the time like this ~~people~~ more and more of people decide to give up their real life and turn into media life. More of them thinking that the Internet is a safe place, there they can be themselves. ~~But they're wrong.~~ But they're wrong.

Children feel unsafe and unsatisfied in schools because of the bad grades at school and a minimum of social life, they often being bullied by older children, by stronger ones. So they decide to go on social media. As I say, they thinking that in the Internet they can be themselves, but they're wrong, because in the Internet you can be whoever you want to be! You don't have to be just annoying "yourself", you can make a better you! And they just hiding behind someone, that they called "me", hoping that someday they maybe become this unreal person.

I think, to help all of the frightened children, we have to talk with them more. All the problems caused by family. The bully is a jerk because his parents doesn't love him enough, the nerd is shy and quiet because his parents doesn't teach him how to connect with other people. It's bad that we didn't pay enough attention to the children's problems. If we continue to ignore their lives, and say, let it be, and I don't care what will be" our nation will kill itself! ~~And~~ And I'm talking serious. The children ~~that~~ will hate themselves, ~~and~~ will hate their parents, they won't ~~be~~ be able to talk with other people, or yes, they will hate everything.

My point is that we have to, we need to and must talk with our children, ~~and~~ with other people, with each other. Talk is a very needy at the time like this.
